

Overview

The Glory Star 7" Media Player with a 1024x600 resolution and TN panel offers decent image quality and viewing angles. It's compact and portable, suitable for different applications. Equipped with an M-Star Chipset, it ensures smooth performance and efficient multimedia processing. Plug & Play functionality allows easy connection of SD cards or USB devices for convenient data transfer or content playback. The auto-start feature enables immediate operation upon power supply. With three activation modes (Loop, Sequential Loop, and Motion Sense), versatile usage is possible. VESA 30x75 compatibility allows for easy mounting, while the remote control and Kensington lock offer convenience and security. This product provides a versatile solution in a lightweight package.
